## Wolmanit® Firestop

Highly effective fire retardant VPT product to improve the performance of timber and plywood when exposed to fire. Wolmanit® Firestop treated timbers will comply with all relevant international fire standards (e.g. EN 13501-1: class B s2 d0), thus giving architects a wide choice in fire-rated timber applications.

- ∅ applied in standard high pressure process
- ∅ low retentions
- ∅ environmental friendly
- ∅ best aesthetic results
- ∅ for interior and exterior usage
